TELEMEDICINE/TELEHEALTH SERVICES DISCLOSURE FORM

YOU HAVE BEEN PROVIDED THIS FORM BECAUSE YOU HAVE ELECTED TO RECEIVE HEALTH CARE SERVICES FROM YOUR PROVIDER AT TITAN HEALTH PARTNERS, LLC D/B/A SOLARA PRIMARY CARE ("SOLARA") VIA TELEMEDICINE/TELEHEALTH. THIS MEANS THAT YOUR "VISIT(S)" AND RELATED SERVICES WITH YOUR SOLARA PROVIDER WILL OCCUR WHILE THE PROVIDER IS AT A DIFFERENT LOCATION THAN YOU AND USING AUDIO AND/OR VIDEO AND OTHER ELECTRONIC SOFTWARE, APPLICATIONS AND/OR EQUIPMENT.

Prior to the initiation of your Telemedicine/Telehealth "visit", your Solara provider will confirm that you have reviewed this form in detail and will obtain your verbal consent to continue with the health care service. Your consent will be documented in your medical record.

****PLEASE REVIEW THIS FORM CAREFULLY****

Introduction to Telemedicine/Telehealth:

Telemedicine/Telehealth allows you or your health care proxy to discuss your symptoms, personal or family history of health conditions, medical issues, and more with your Solara provider in real-time. Using Telemedicine/Telehealth, you can receive a diagnosis, learn your treatment options, receive treatment advice and medical recommendation, and get most prescriptions, from the comfort of your own home or another remote location. In cases where it's necessary, healthcare providers can even monitor readings from medical devices remotely to keep an eye on your condition.

You are able to send and receive the following information via Telemedicine/Telehealth: Your medical records, your medical images, live two-way audio and video communications, output data from medical devices and sound and video files.

During your visit or session, your Solara provider may recommend that you have tests taken (blood, urine, other tissue, imaging and other radiology) and other interventions to look for changes associated with each possible diagnosis. You may decline testing or you may elect to pursue testing at a later date. If you elect to pursue testing, your provider will either direct you to an appropriate Solara facility or provide you with a prescription to an outside laboratory, radiology, imaging or other specialized facility.

Data obtained during telemedicine/telehealth sessions or visits, or related communications, will be incorporated into your electronic medical record at Solara. Solara's electronic systems include network and software security protocols to protect the confidentiality of patient identification and imaging data and will include measures to safeguard the data and to ensure its integrity against intentional or unintentional corruption.

Expected Benefits of Telemedicine/Telehealth:

Some of the expected benefits may include:

- Improved access to medical care by enabling you to remain in your home or another remote site during “visits” with your provider and while your provider obtains test results and consults from healthcare providers at other locations;
- Efficient medical evaluation and management of your care; and
- Obtaining expertise of a provider at a distant location.
- In rare cases, information transmitted through audio and/or visual software or application may not be sufficient (e.g., poor resolution of images) to allow for appropriate medical decision making by your provider;
- Delays in medical evaluation and treatment could occur due to deficiencies or failures of the equipment being used;
- In very rare instances, security protocols could fail, causing a breach of privacy of personal medical information;
- In rare cases, a lack of access to complete medical records may result in adverse drug interactions or allergic reactions or other judgment errors.

Potential Risks of Telemedicine/Telehealth:

As with any medical procedure, there are potential risks associated with the use of Telemedicine/Telehealth. These risks include, but may not be limited to:

Privacy Risks in Using Third-Party Communication Applications:

You should be aware that the use of third-party software or applications to transmit health information potentially introduces privacy risks. While we will enable all available encryption and privacy modes when using such software and applications, there unfortunately remains a risk that the applicable systems may be infected by malware or suffer some other breach and transmit your personal and financial information without your knowledge or consent.

There also remains the risk of information being misappropriated on your end. **You should make every effort to attend your sessions and visits from a private location whenever possible. Further, you should not share any application or software logins, passwords or other access information with others. Finally, do not open or access any communication unless you are certain that it has come from your Solara provider.**

Costs of Telemedicine/Telehealth Services:

You will be charged for sessions and visits with your provider according to the terms of your insurance coverage. Any laboratory, imaging facilities, etc. that provide you with testing at the direction of your provider will charge you separately for the testing. You may verify coverage for this service prior to having it. You may self-pay for the telemedicine/telehealth service and necessary testing or provide us with insurance information so that we may bill your medical insurance company. Most insurance providers charge a copay for these services except in certain cases.

BY CONSENTING TO PROCEED WITH A TELEHEALTH/TELEMEDICINE SERVICE WITH SOLARA YOU UNDERSTAND THE FOLLOWING:

1. You can decline the Telemedicine/Telehealth service at any time without affecting your right to future care or treatment, and any program benefits to which you would otherwise be entitled cannot be taken away.
2. You may have to travel to see a health care practitioner in-person if you decline the Telemedicine/Telehealth service.
3. If you decline the Telemedicine/Telehealth services, there are other options/alternatives available for you including seeking in-person services from your Solara provider or seeking alternative providers in your community. Your Solara provider has explained the alternative to your satisfaction.
4. The laws that protect privacy and the confidentiality of medical information also apply to Telemedicine/Telehealth services.
5. There are potential risks associated with using Telemedicine/Telehealth services.
6. You have the right to inspect all information obtained and recorded in the course of a Telemedicine/Telehealth interaction, and may receive copies of this information for a reasonable fee unless a fee is prohibited by law.
7. Telemedicine/Telehealth may involve electronic communication of your personal medical information to other medical providers who may be located in other areas, including out of state.
8. It is your obligation to fully identify yourself to your provider at the time of your session and visit, your location and any persons located in the room with you who are allowed to hear your personal health information.
9. It is your duty to inform your Solara provider of electronic interactions regarding your care that you may have with other healthcare providers.

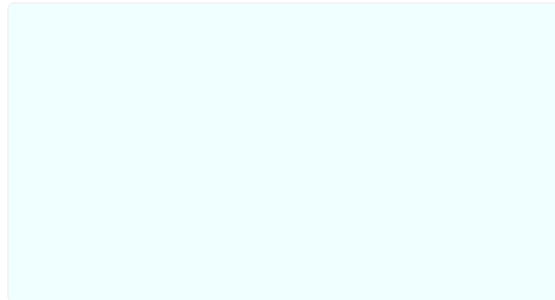

10. You may exclude anyone from any site during your Telemedicine/Telehealth service.

11. While you may expect anticipated benefits from the use of Telemedicine/Telehealth in your care, no results can be guaranteed or assured.

12. Your insurance will be billed for Telemedicine/Telehealth services and you may be billed for what your insurance does not cover, dependent upon the provider. If you have any questions about billing, you will need to talk with the provider's billing office.
